CHALLENGES & LEARNINGS

1. Time Management & Teamwork

Challenge: Balancing university classes, assignments, and hackathon deadlines with limited technical expertise.

Learning: Improved time management, task prioritisation, and teamwork under pressure.

2. Technical & AI Development

Challenge: Learning to deploy AI models using RunPod Serverless GPUs and building a complex full-stack web application.

Learning: Developed skills in AI deployment, prompt engineering, and LLM integration.

3. Unfamiliar Development Workflows

Challenge: Adapting to unfamiliar development workflows and refining Skilytics within a tight deadline.

Learning: Improved GitHub collaboration, Canva design skills, and the ability to apply mentor feedback to enhance the project.
